

Sleek and Stylish Bluetooth Labelling Machine

The Brother PT-P300BT is the latest Bluetooth label printer that works with your smartphone or tablet via a new P-Touch Design&Print app that comes complete with print-ready templates and frames.

- Bluetooth connection via the Design&Print app
- Sleek and stylish design
- Prints 6, 9 and 12mm labels
- Prints durable laminated tape
- Fast 20mm/sec print speed

NEXT TIME

LABEL IT

Organise your home with style with the P-touch P300BT

Try out the useful templates with pre-made labels and pattern designs. From labelling file folders, cables and wires, to making gift tags and scrapbook pages, there are more uses than ever for the PT-P300BT.

Print anywhere, anytime

Use the Design&Print app and design labels from your smartphone

High Speed Printing:

The fastest thermal label printer in its class with 20mm/sec print speed

AC Adapter Slot:

Uses 6 AAA-sized batteries (not included) or an optional 9V power adapter

Compact And Portable Design:

Built to fit into any home or office environment. Weighing only 380g, the PT-P300BT is lighter and smaller than any other similar products in the market today

P-touch Design&Print App

Tested to work with Android* and Apple iOS*, the PT-P300BT app allows customisation and selection of fonts, designs and material to suit your preferences.

The app can even display the actual text and background colours in print preview mode!

*Operating systems: Android (4.2 or newer) and Apple iOS (9 or newer)

Expand your creativity with a great range of tapes

With a great range of tapes to choose from, the possibilities are endless. Create stylish ribbons, decorative or durable laminated labels and add extra flair to your home or office.

Ribbon Tape Range

Select from four choices of premium quality, beautiful satin ribbons. The gold characters on the ribbons are printed using thermal (heat transfer) technology meaning they do not fade or fall off, and can be integrated into clothing.

Decorative Pattern Tape Range

Add a personal touch with the durable and unique pattern tapes. With four options to choose from, your gifts will stand out from the rest.

TZe Tape Range

Brother P-touch laminated TZe tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

The labels have been tested to the extreme, so you can be confident of a professional quality label that has been designed to last.

PT-P300BT

Clearly identify items with a durable P-touch label! Around the home, office, school, shop and other places of work, there are many uses for long lasting, durable TZe P-touch labels as well as creative ways to label with the Ribbon and Decorative Tape ranges.
